

Production Document Capture Package

For sites with imaging needs less than 8,000 pages per day or 75,000 pages per month

Designed specifically for high-volume production level imaging needs, this package contains everything you will need to convert your paper documents to efficient digital assets, including template-based index OCR, validation and hand-off to your transactional application environment.

Document Imaging Benefits:

- Enables faster access to documents
- Enhances productivity
- Saves storage space
- Prevents lost documents
- Preserves document integrity
- Improves customer service
- Enables content re-use
- Delivers on-ramp to workflow and collaboration capabilities

Software: Image Capture	Kofax Ascent Capture document imaging and OCR software, with full license for up to 75,000 pages per month. Includes first-year software maintenance. Assembled in either server or stand-alone configurations.
Software: Image Enhancement	Kofax Virtual ReScan (VRS) v4.0 plus image enhancement software (single professional scanner license)
Hardware	Fujitsu Fi-5750C (with cable) <ul style="list-style-type: none">• Simplex & duplex color scanner• Automatic Document Feeder (ADF) and Flatbed (FB) scan• Output resolution up to 600 dpi grayscale/color /monochrome• Weight: 35 kg (77 lbs.)• Drivers: TWAIN, ISIS• Dual CCD Image Sensor• Color Scanning Speed (at 200 dpi): Simplex 57 ppm/ Duplex 114 ipm• Monochrome Scanning Speed (at 200 dpi): Simplex 57 ppm/ Duplex 114 ipm• Double Feed Detection (Ultrasonic Multi-Feed Detection)• Paper Input Capacity: Up to 200 sheets• Ergonomic ADF<ul style="list-style-type: none">• ADF position selectable: 2 positions (center, left)• ADF direction: 2 directions are selectable for left-handed / right-handed persons, when ADF is center• High-speed scanning at high resolution:<ul style="list-style-type: none">• 57 ppm / 110 ipm A4 Portrait at 300 dpi• 30 ppm A4 / LT Landscape at 600 dpi• ADF and FB Document Size:<ul style="list-style-type: none">• Minimum: A8 (portrait, 127g/m2, 34 lbs.)• Maximum: A3 or 11" x 17"• Dual interface featuring SCSI-II (50 M connection) and high-speed USB 2.0, including 6' USB cable• Recommended for up to 8,000 pages per day• 3-month warranty

Production Document Capture Package

The production document capture package is the perfect mix of hardware, software, consumables and volume requirements for common production level installations. Bottomline realizes, however, that each organization may have different business needs and requirements. For this reason, we have also made available a variety of upgrade and training options to help you maximize your overall return on investment. In addition to available volume upgrades, warranty upgrades and training options, your hardware consumables may be ordered directly from Bottomline for true one-stop shopping. The options available for this package are listed below.

Kofax Volume Upgrades

Bottomline's production document capture package provides the ability to image up to 75,000 pages per month via a full Kofax Ascent Capture license. Several full-license upgrade options (optimized for client/server configurations) are available. These include:

- From 75,000 pages/month to 200,000 pages/month
- From 75,000 pages/month to 500,000 pages/month
- From 75,000 pages/month to 1,000,000 pages/month

Warranty Upgrades

A hardware warranty protects you and your company from unforeseen issues and ensures that your new scanner will provide years of dependable service. Your production document imaging package includes a 3-month warranty at no additional cost.

- Scanner Warranty Upgrade – Increase to one-year on site
- Additional options are available by contacting your Bottomline Technologies representative

Training Options

A number of training and professional services options are available. At least two days of training and installation services are highly recommended.

- 1-day education on Kofax, VRS and Fujitsu device set-up and operation
- 2-day education on Kofax, VRS and Fujitsu device set-up and operation (recommended)
- 5-day education on Kofax Ascent Capture (at Kofax facilities in California)

Consumables and Supplies

Bottomline is able to provide a complete range of consumables and supplies for your new Fujitsu scanner hardware. Available supplies for your production document capture package include:

- Brake roller
- Pad assembly
- Cleaning kit
