

Departmental Document Capture Package

Recommended for sites with imaging needs less than 3,000 pages per day or 25,000 pages per month

Designed specifically for large departmental and low-end production needs, this package contains everything you need to convert paper documents to efficient digital documents, including template-based index OCR, validation and hand-off to your transactional application environment.

Document Imaging Benefits:

- Enables faster access to documents
- Enhances productivity
- Saves storage space
- Prevents lost documents
- Preserves document integrity
- Improves customer service
- Enables content re-use
- Delivers on-ramp to workflow and collaboration capabilities

Departmental Document Capture Package

The departmental document capture package is the perfect mix of hardware, software, consumables and volume requirements for common departmental installations. Bottomline realizes, however, that each organization may have different business needs and requirements. For this reason, we have also made available a variety of upgrade and training options to help you maximize your overall return on investment.

In addition to available volume upgrades, warranty upgrades and training options, your hardware consumables may be ordered directly from Bottomline for true one-stop shopping. The options available for this package are listed below.

Kofax Volume Upgrades

Bottomline's departmental document capture package provides the ability to image up to 25,000 pages per month via a full Kofax Ascent Capture license. Several full-license upgrade options (optimized for client/server configurations) are available. These include:

- From 25,000 pages/month to 75,000 pages/month
- From 25,000 pages/month to 200,000 pages/month
- From 25,000 pages/month to 500,000 pages/month

Warranty Upgrades

A hardware warranty protects you and your company from unforeseen issues and ensures that your new scanner will provide many years of dependable service. Your departmental document imaging package includes a 3-month warranty at no additional cost.

- Scanner Warranty Upgrade – Increase to one-year on site
- Additional options are available by contacting your Bottomline Technologies representative.

Training Options

A number of training and professional services options are available. At least one day of training and installation services is highly recommended.

- 1-day education on Kofax, VRS and Fujitsu device set-up and operation (recommended)
- 2-day education on Kofax, VRS and Fujitsu device set-up and operation
- 5-day education on Kofax Ascent Capture (at Kofax facilities in California)

Consumables and Supplies

Bottomline is able to provide a complete range of consumables and supplies for your new Fujitsu scanner hardware. Available supplies for your departmental document capture package include:

- Pick roller
- Pad assembly
- Cleaning kit
